

Annexure A

CEAL Limited (trading as Multiquip Quarries) is convicted of contravening development consent and ordered to pay \$98,500.

CEAL Limited (trading as Multiquip Quarries) has been convicted of two offences and ordered to pay fines totalling \$98,500 plus legal costs by the Land and Environment Court of NSW. The offences are against section 9.51 of the *Environmental Planning and Assessment Act 1979* (EP&A Act) of carrying out development otherwise than in accordance with the development consent issued by the Minister for Planning, contrary to section 4.2 of the EP&A Act.

The offences occurred at the Ardmore Park Quarry site located at Oallen Ford Road, Bungonia NSW.

The first offences involved failing to comply with a condition of development consent that required the development to be carried out generally in accordance with the environmental assessment documents and project layout referred to in Condition 2 of Schedule 2. The Court found that CEAL Limited used silt cells 1, 2, and 3a, as well as silt and oversize management areas 1 and 2 to the west of the acoustic bund, which were not as shown on the approved project layout plans.

The second offence was for importing screened waste material to the site without first preparing and having approved a waste management plan, in breach of condition 37A of Schedule 3 of the consent.

On 28 March 2025, the Land and Environment Court of NSW sentenced CEAL Limited for the two offences and ordered it to:

1. Pay fines totalling \$98,500;
2. Pay the prosecutor's legal costs;
3. Place a notice in various State and regional news publications advising of the commission of the offence, and to pay for the placement of those notices; and
4. Place a notice on the home page of the Multiquip Quarries website advising of the commission of the offence.
